FUELXTM

AUTOTUNE

ELECTRONIC FUEL INJECTION OPTIMIZER

RACEdynamics®
Performance Through Innovation

FuelX is a state of the art electronic plug-in fuel-injection optimizer for modern engines, it autotunes the engine to best operational parameters, constantly monitoring, learning and adapting to the engine condition, wear and tear, riding style, add-ons (such as air filter and/or exhaust), etc as well as the environmental conditions such as temperature, humidity, altitude, etc. always ensuring the engine performs in the safest and most optimal zones.

- FuelX Pro variant comes with a map switch & 10 Autotune switchable maps for the rider to select.
- FuelX Lite variant comes with a single Autotune map optimized for the best results.

FEATURES & BENEFITS

- **REDUCED ENGINE & EXHAUST TEMPERATURE, ENHANCED ENGINE LIFE**
- **ELIMINATES FLAT SPOT & JERKINESS**
- **10 AUTOTUNE SWITCHABLE MAPS (ONLY IN PRO VARIANT)**
- **SMOOTHER ENGINE OPERATION**
- **IMPROVED POWER & TORQUE**
- **LESSER DOWNSHIFTS**

HAZARD FLASH MODULE

Flash X is a cool hazard flash module for your motorcycle which is a plug and play device that allows you to choose different combination of blink patterns on your motorcycle. Stop worrying about cutting and splicing of wires as this one just plugs into the stock socket of your motorcycle. Too many switches on your handle bar and no more space to mount another ? problem solved !! We have integrated it with stock indicator switches of your motorcycle with just the combination of right, left, right and center clicks
